Stubenring Wing

Weiskirchner Wing

The Weiskirchner Wing with the MAK Exhibition Halls was designed by Ludwig Baumann in the Late Historicist style and opened in 1909. The halls are accessed exclusively through the magnificent entrance foyer located at Weiskirchnerstraße 3. Totalling 2,700 m², they constitute one of the largest exhibition spaces in Vienna's city center. When they are not being used for temporary exhibitions, the two air-conditioned halls offer a generously dimensioned setting for gala dinners, premiere celebrations, conferences, product presentations, and trade fairs.

1

MAK Columend Main Hall

Built by Heinrich von Ferstel in the Florentine Renaissance style, the MAK Columned Main Hall is one of the most prestigious locations in Vienna, an exclusive venue for evening events such as receptions, gala dinners, and presentations. At the same time, the Columned Main Hall is the ideal starting point for exclusive tours through the famous MAK Permanent Collection, the MAK Design Lab, and the temporary exhibitions. Temporary installations (currently the oversized "Gelatin sofa") in the Columned Main Hall lend the space a unique atmosphere.

SIZE
Ground Floor: 520 m²

CAPACITY
Gala Dinner: up to 280 Persons,
Theater: up to 350 Persons,
Cocktail: up to 450 Persons

2

MAK Exhibition Hall, Ground Floor

The exhibition hall on the ground floor consists of a central hall (593 m²) with an imposing glass transom light and a generously proportioned U-shaped outer gallery (881 m²). The restrained, elegant architecture allows for a wide range of different uses and settings.

SIZE
1,474 m²

CAPACITY
up to 520 Persons

3

MAK Exhibition Hall, Upper Floor

The exhibition hall on the upper floor surrounds an impressive atrium and is considered one of the most attractive exhibition spaces in Vienna. Large-sized windows are a main feature of this light and airy room, which provides an elegant setting for your events.

SIZE
1,203 m²

CAPACITY
up to 410 Persons

4

MAK Lecture Hall

The MAK Lecture Hall was designed by Ludwig Baumann. The imposing room is air-conditioned and can be fully blacked out. The audiovisual system's technology is state-of-the-art. Receptions or coffee breaks can be held in the foyer in front of the Lecture Hall (130 m²) and in the entrance foyer on the ground floor.

SIZE
223 m²

CAPACITY
up to 200 Persons

5

MAK Lounge

The MAK Lounge is a large, modern, brightly-lit room 80 m² in size. Its well-proportioned windows and illuminated wall hanging provide a pleasant, inspiring atmosphere for seminars, press conferences, presentations, and workshops.

CAPACITY
up to 50 Persons

The MAK

Founded under Emperor Franz Joseph I in 1863 as the Imperial Royal Austrian Museum of Art and Industry, the MAK is one of the most magnificent buildings on Vienna's Ringstraße. Located between the adjacent Stadtpark and the University of Applied Arts Vienna, its collection of over 900,000 objects and prints from across five centuries—from the famous Thonet bentwood chairs and furniture designs from the age of Viennese Modernism to contemporary design solutions to the challenges of our age—makes the MAK one of the most important museums of its kind in the world.

Events at the MAK

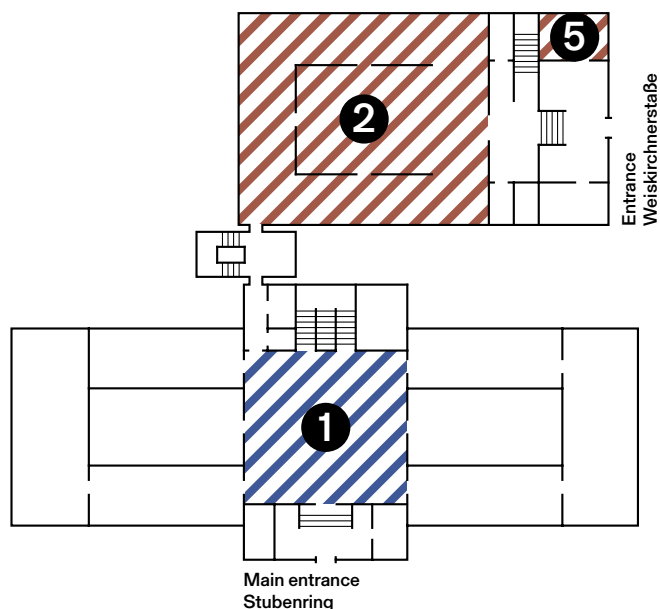

The MAK offers much more than a magnificent museum as a backdrop for your events; the setting it provides is outstanding in many other respects, featuring spatial and technical facilities for almost every occasion. Celebrate in the traditional classical ambience of one of the Vienna Ringstraße's most renowned stately buildings. Take advantage of the unique atmosphere of the great exhibition halls with their restrained, elegant architecture, or the furnished lecture hall with its full range of technical equipment. Aside from the lecture hall, the MAK leases its venues inclusive of infrastructure but without furnishings or technical equipment. You may make your own choice of caterers and other suppliers.

Exclusive Guided Tours

For the guests attending your events, we are pleased to offer exclusive guided tours through the unique MAK Permanent Collection, the MAK Design Lab, and the temporary exhibitions, all of which have established the Museum's reputation as an innovative cultural institution.

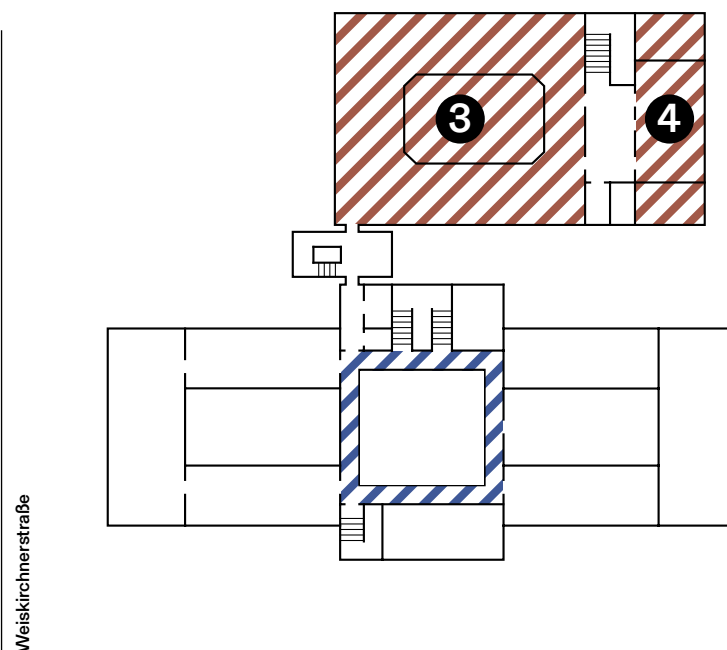

In exhibition rooms designed by renowned contemporary artists, outstanding exhibits from the MAK's extensive collection are on display. The Permanent Collection Vienna 1900 includes Gustav Klimt's work drawings for the mosaic frieze in the Stoclet House in Brussels as well as many other outstanding Art Nouveau and Wiener Werkstätte creations. The MAK is also the place to experience contemporary design positions, to admire precious Asian works or to see the Thonet Brothers' chairs from a new perspective.
